

VAMSI KRISHNA GODDENDLA

Frontend Developer | React.js | 3+ Years | Full-Stack Capable

+91 83097 49905 | Vamshi224gvk@gmail.com | Hyderabad, Telangana, India | [LinkedIn](#)

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building scalable, high-performance web applications using React.js and JavaScript (ES6+). Expertise in reusable UI components, REST API integration, and performance optimization in enterprise environments. Actively leverages GitHub Copilot, ChatGPT, and Cursor AI to accelerate workflows and improve code quality. Experienced in Agile/Scrum, L3 production support, and expanding full-stack skills with React, Spring Boot, and MongoDB.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6+), Redux, Redux Toolkit, Context API, React Hooks, HTML5, CSS3, Responsive Design

Backend: Java, Spring Boot, Spring Framework, RESTful APIs, JWT.

Databases: MongoDB, MySQL.

AI Tools: GitHub Copilot, ChatGPT, Cursor.

Tools & DevOps: Git, GitHub, Jira, Jenkins, Postman, VS Code,

Monitoring: Splunk, Quantum Metric, BMC Helix. **Methodologies:** Agile, Scrum, L3 Production Support, SDLC

PROFESSIONAL EXPERIENCE

Senior System Engineer | Frontend Developer

Infosys Limited – Hyderabad

- Sep 2021 – Dec 2024

- Developed scalable, enterprise-grade React.js applications for internal business users, enabling dynamic data rendering across complex business workflows.
- Architected reusable UI component libraries using React Hooks, Redux, and Context API, improving team development efficiency and long-term code maintainability.
- Integrated RESTful APIs using Axios to establish seamless data communication between frontend and backend services, enhancing overall user experience.
- Optimized application performance through lazy loading, code splitting, and memoization techniques, reducing page load time by ~25%.
- Implemented JWT-based authentication and role-based access control (RBAC), ensuring secure user session management across enterprise applications.
- Diagnosed and resolved critical UI and API-related production issues as part of L3 support, maintaining high system availability and minimal downtime.
- Collaborated with cross-functional Agile/Scrum teams across the full SDLC — from requirements gathering and sprint planning to production deployment.

PROJECT EXPERIENCE

Kanban Task Management System (Full Stack) Tech Stack: React.js, Spring Boot, MongoDB, MySQL, JWT, GitHub Copilot

- Built a full-stack role-based Kanban app with dynamic React UI, RBAC, and task lifecycle management (NEW → IN_PROGRESS → UNDER_REVIEW → COMPLETED) supporting 3 user roles.
- Developed 10+ RESTful APIs using Spring Boot; integrated MongoDB for task storage and MySQL for user management across 2 databases.
- Leveraged GitHub Copilot and Cursor AI to accelerate boilerplate generation and API integration, reducing development time by ~30%.

Analytics Dashboard (Frontend – React) Tech Stack: React.js, JavaScript, Chart.js, Recharts, REST APIs, ChatGPT

- Built an interactive analytics dashboard with 8+ dynamic charts, advanced filters, and pagination for real-time business data visualization.
- Optimized rendering performance using useMemo and lazy loading, reducing unnecessary re-renders by ~40%; designed reusable, accessible, responsive UI components.
- Used ChatGPT for rapid prototyping of chart configurations and component logic, cutting iteration time significantly.

PROFESSIONAL TRAINING

Full Stack Development with GenAI Honors – NIIT - Apr 2025 – Jan 2026

- Hands-on full-stack development using React, Java, Spring Boot, MongoDB, MySQL, and AI-assisted workflows.

EDUCATION

B.Tech – Computer Science & Engineering G. Pulla Reddy Engineering College, Kurnool – 2021

CERTIFICATIONS

- Infosys Certified Professional – React.js Developer
- Infosys Global Agile Developer Certification
- Business Communication – Level 5
